**WEST PHYSICS CONSULTING SIGNS EXCLUSIVE ARRANGEMENT  
WITH INSIGHT HEALTH CORP.**

ATLANTA, Georgia (October 16, 2005)—West Physics Consulting, a leading national provider of medical and health physics consulting and testing services, announced today it has entered into an exclusive arrangement with InSight Health Corp. to provide all American College of Radiology (ACR) MRI physics testing and consulting services for InSight's network of 126 fixed site facilities.

"West Physics prides itself on working for some of the nation's most respected providers of diagnostic imaging services. We are thrilled to add a company as prestigious as InSight Health Corp. to our list of clients," said W. Geoffrey West, M. Eng., CHP, founder and president of West Physics.

InSight Health Corp. is one of the largest nationwide providers of imaging services in the United States, providing diagnostic imaging and therapeutic services in more than 30 states to more than 60,000 patients each month.

"I believe that our company's unwavering commitment to technical expertise and customer service makes us a perfect match for InSight, which shares these values," said West. "We are excited by the opportunity to provide ACR MRI physics services to a company with the scope and scale of InSight and look forward to successfully meeting their unique and complex needs. This relationship will present West Physics with new opportunities to enhance our service offerings and technical capabilities, as well as add to the unparalleled level of service that we already provide to our clients."

Gregg C. Daversa, InSight Health Corp.'s vice president of technical services, said, "West Physics Consulting has a demonstrated expertise in the field of ACR MRI physics services and an outstanding reputation in the diagnostic physics arena. At InSight, we have a strong history of successful relationships with organizations that share our commitment to quality and service. West Physics is one of those organizations and we believe this relationship will further enhance the quality of service we provide to our customers and patients."

**About West Physics Consulting:**

West Physics Consulting is a national provider of medical and health physics consulting and testing services. It is committed to technical and service quality and has grown from serving a single local client in 2002 to now serving more than 200 clients in 27 states. West Physics' staff specializes in complex diagnostic imaging problems and modalities and their diverse backgrounds and top-notch training result in superior diagnostic capabilities. The firm is recognized for providing local-style response times and customer service in combination with national expertise and consistency.

**About InSight Health Corp.:**

Headquartered in Lake Forest, California, InSight provides its services through an integrated network of fixed-site centers and mobile facilities in over 30 states, with a substantial presence in California, Arizona, Texas, New England, the Southeast, and the Mid-Atlantic States. InSight uses state-of-the-art

equipment operated by highly trained technologists and experienced managers, with a focus on strong customer service values. InSight aligns itself with established radiologists whose knowledge and experience contribute to each site's growth and reputation for superior quality service.
